Continuing Education and Customized Training

Cisco Certified Network Associate 8 Week Fast Track Certification Program

Sequence of Courses Offered:

Network Fundamentals (CCNA-1)

This course provides an introduction to the OSI 7 and TCP/IP model

Routing Protocols and Concepts (CCNA-2)

This course provides instruction on the selection of routing protocols

LAN Switching and Wireless (CCNA-3)

This course provides instruction on selection of configuration of internetworks

Accessing the WAN (CCNA-4)

This course provides instruction on the topic of Wide Area Network connectivity

CCNA Certification Fast Track Program

Mon–Thurs, May 17–July 29, 2010
No class: May 31, Jun 14–25, July 5–8

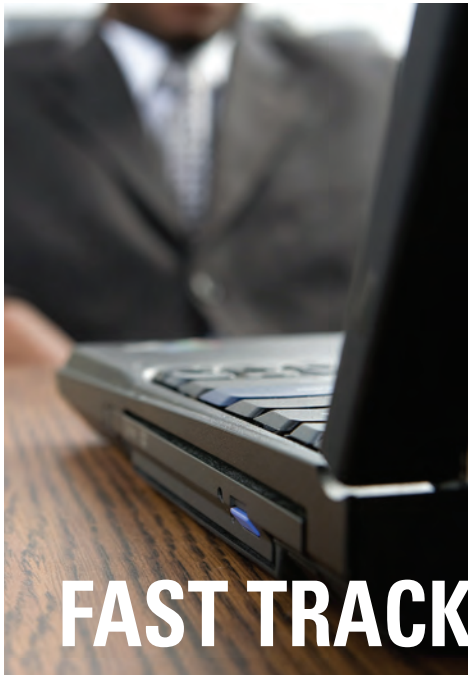

Cost: \$2,995 (includes CCNA exam)

Century College,
East Campus, Room E1716

CCNA (Cisco Certified Network Associate)

Network Fundamentals (CCNA-1)

This course provides an introduction to the OSI 7 and TCP/IP models used in data communication and computer networks with emphasis on network infrastructure design, configuration, and implementation. This course is the first in a four-course sequence.

Routing Protocols and Concepts (CCNA-2)

This course provides instruction on the selection of appropriate routing protocols and the configuration of internetworks. Topics include static and dynamic routing, Variable Length Subnetmasking (VLSM), Classless Inter-Domain Routing (CIDR), Distance-Vector and Link-State routing, as well as close examination of the routing table used by routers.

LAN Switching & Wireless (CCNA-3)

This course provides instruction on the selection of appropriate routing protocols and the configuration of internetworks. Topics include static and dynamic switching, Virtual Local Area Networks (VLANs), VLAN Trunking Protocol (VTP), Spanning Tree Protocol (STP), inter-VLAN routing, as well as providing an introduction to wireless LANs.

Accessing the WAN (CCNA-4)

This course provides instruction on the selection of appropriate routing protocols and the configuration of internetworks. Topics include Wide Area Network (WAN) connectivity and protocols, network security, Access Control Lists (ACLs), providing remote users network access, IP address conservation and assignment, and network troubleshooting.

CCNA Registration Form

Please fill out all information completely. Date of birth or social security number is required. This data is for student record keeping purposes only, and will not be released or used for any other purpose.

Name _____ Date of Birth ____/____/____

Home Address _____ City _____ State _____ Zip _____

Home Phone (_____) _____ Gender ____ Male ____ Female

Business Name _____ Business Phone (_____) _____

Business Address _____ City _____ State _____ Zip _____
