## **Century College Names Outstanding Students for 2008-2009**

[Century College](#) honored its Outstanding Students for 2008-2009 at a ceremony Friday, April 24, at the college. One student from each of 35 disciplines and programs was chosen by faculty members to receive the Outstanding Student honor. Students also were honored for their leadership in campus activities.

An overflow crowd of students, parents, family and friends attended this year's ceremony. Smiles were abundant as faculty members called forth each student, said a few words about each one, and then gave the students a chance to speak. Most students were honored not only for their academic scholarship, but also for their interaction in class and community activities.
