## **Century College Math Students Honored**

For the 7th year in a row, [Century College mathematics](#) students have placed among the top five teams of the Central Region in the national Student Mathematics League Contest sponsored by the American Mathematics Association of Two-Year Colleges. Century this year placed 4<sup>th</sup> out of 18 teams in the region and was in the top third of the participating colleges in the nation.

Joey Daniewicz of Woodbury was honored recently for having the highest cumulative score among the 81 Century students who participated in the two rounds of the math contest. He had his name added to the AMATYC plaque with past top scorers.

The Student Mathematics League contest consists of a series of two written competitions held each year at two-year colleges nationwide. Each contest consists of 20 multiple choice questions that contestants must solve individually in 60 minutes. The problems are from areas such as intermediate and college algebra, geometry, probability, logic, number theory and trigonometry.

Honored math students included (see attached photo, front row, left to right) Wayne Gabrielson of Maplewood, Joey Daniewicz of Woodbury, Luciana Quayat of Vadnais Heights. Back row: Benjamin Neumann of Hudson, Wis., Andrew Bean of Roseville, Gabriel Tomasko of Woodbury.
