Century College to Hold Open House Tuesday, Feb. 23

Century College, the largest two-year college in Minnesota, will host its annual open house for prospective students and their families on **Tuesday, Feb. 23, from 5 to 8 p.m. in the West Campus gymnasium**. All are welcome.

Century faculty and staff members will be on hand to speak to students about the many opportunities that Century provides. In the current economy, Century is a great investment in the future. People are voting with their feet and attending Century in record numbers. Summer session begins May 24 and fall semester starts Aug. 23.

Century offers both short-term training through its [Continuing Education and Customized Training division](#), and longer-term, credit-based certificates, diplomas and associate degrees. Students often begin their higher education at Century and then transfer to a four-year institution to complete their bachelor's

degree. Others seek training that can help them enter the job market quickly. Representatives will be available that evening to discuss all of these options.

Members of the public are also invited to tour the campus. Century has an award-winning Science/Library Building on the East Campus and renovated computer labs and classrooms on the West Campus. More renovation of the West Campus is currently underway to construct Century's first-ever Student Center.

Whether you are a high school student looking for a quality education experience after graduation, or an adult looking for a new career or further training in your current career, Century offers something for you. Please visit Century, have your questions answered and see how investing in your education is the wisest investment you can make.
