Century Hosts Documentary Film on Energy October 14

The Century College Climate Committee will host an award-winning documentary film called “Kilowatt Ours” on **Thursday, Oct. 14, at 7 p.m. on the East Campus Lincoln Mall.**

The film by Jeff Barrie has become part of a national movement to promote energy conservation, efficiency and renewable energy. “Kilowatt Ours helps ordinary citizens take an active role in energy conservation,” said Barrie. “Most viewers are shocked at the scope of the issue and even more so at the immediacy and simplicity of the solution – energy savings as an energy source.”

Joe Johnson, host of the cable TV show “The Green Guy,” will present the film, which is free and open to the public. Johnson is a lifelong advocate of recycling, resource conservation, energy efficiency and clean renewable energy. He is active in several environmental activities and groups.
